# ABOUT INKAA GROUP OF INDUSTRIES

Inkaa Group of Industries, incorporated in 2017 is a multi division and multi location company. The company was promoted by Mr. Arka Sengupta and Mr. Koushik Ghosh, who presently are partners. It has it's Head Quarters in Kolkata - 700 026, West Bengal, India.

As we stepped in the business in the year 2017, we have entered in - Information Technology, Healthcare and Medical, MICE and Event Planner, Tourism and Travel Planner and more.

Inkaa Group possesses a sound infrastructure that is clubbed with logical redundancies at every vital point. The company is situated in Nakuleswar Bhattacharya Lane, Near Kalighat Temple and Rashbeehari Avenue Crossing, in the heart of the South Kolkata. The Office is a mere 10 Km from Salt Lake (IT hub of Kolkata) and boasts of one of the latest infrastructures.

Apart from having a close proximity to important utilities, the city outweighs other places in terms of easy availability of highly skilled and quality manpower, efficient connectivity and power supply, perfect law and order situation and state approachability.

---

## WHY INKAA GROUP?

We work with clients locally, nationally and internationally, and our experience allows us to know what's best for your business. We've helped almost 1000 clients to enter the online world, make the transition into e-commerce and improve their traffic with further support after the initial web design. We're not just a Website Design and Development company; we have the commercial knowledge and the industry skills that allow us to deliver results time after time. We believe in originality and all our sites are designed to suit the needs of the business, the structure of your market and your customer profiles. We provide a technological facility to our clients so that they can concentrate on their business and can gain a profit. Our aim is to ensure that you generate business opportunities and lead to high level. We work with a wide variety of customers with the motive to make them reach to the top page and we work with the advance technology.
